

Zijin Gold (2259 HK)

Last price: HK\$103.00

Support levels: HK\$93.20/HK\$84.20

Resistance levels: HK\$124.30/HK\$140.20

Technical View:

Price is exhibiting a potential bottoming behavior following the establishment of structural support at HK\$84.20, having successfully defended its prior gap-up zone with a strong bullish engulfing candlestick that signals localised downside rejection. The RSI is recovering toward its 50-neutral midline. Confirmation of a structural trend reversal now hinges on a decisive, high-volume breakout and sustained close above the immediate swing-high resistance at HK\$113.00.

Average timeframe: Around two weeks.

Tingyi (0322 HK)

Last price: HK\$11.26

Support levels: HK\$10.97/HK\$10.87

Resistance levels: HK\$12.16/HK\$12.63

Technical View:

After successfully defending its key breakout level - which is now serving as structural support - the price is building upward momentum. This bullish continuation is validated by the RSI, which is rising steadily above its neutral 50 level to reflect expanding buying pressure. From a technical perspective, this setup clears the way for a targeted rebound back toward the immediate overhead resistance zone.

Average timeframe: Around two weeks.
