

Xiaomi (1810 HK)

Last price: HK\$27.14

Support levels: HK\$25.28/HK\$24.48

Resistance levels: HK\$29.74/HK\$32.88

Technical View:

The upward trend remains intact after successfully validating the resistance-turned-support zone. The RSI is holding steadily above its neutral 50-midline to reflect sustained buy-side conviction. As long as this newly established support zone continues to absorb selling pressure, the technical trajectory stays strongly oriented toward further upside expansion.

Average timeframe: Around two weeks.

Sino Biopharmaceutical (1177 HK)

Last price: HK\$5.19

Support levels: HK\$4.71/HK\$4.19

Resistance levels: HK\$5.47/HK\$5.76

Technical View:

The primary markdown structure remains firmly locked in place as the overhead support-turned-resistance zone continues to cap all recovery attempts. The RSI is turning downward despite remaining above its neutral 50-midline. This favours short-side extension, projecting continued downward progression as long as the price remains capped below this key technical ceiling.

Average timeframe: Around two weeks.
