

Legend (3396 HK)

Last price: HK\$14.55
Support levels: HK\$12.94/HK\$12.12
Resistance levels: HK\$16.83/HK\$18.07

Technical View:

A successful defence of the prior low support zone has initiated a structural recovery, directing price toward a key retest of the overhead resistance boundary. The RSI is expanding above the neutral 50 threshold, which confirms positive velocity. This increases the probability of a successful resistance penetration for long-side continuation towards secondary overhead targets.

Average timeframe: Around two weeks.

Tencent (0700 HK)

Last price: HK\$490.40
Support levels: HK\$475.20/HK\$462.00
Resistance levels: HK\$520.50/HK\$556.50

Technical View:

Price has successfully consolidated above the previous price high resistance zone, reinforced by a bullish rising window that confirms strong buy-side displacement and structural acceptance at higher levels. The RSI is holding firmly above its neutral 50-midline to reflect sustained demand and directional strength. This implies further upward price expansion towards new overhead targets as long as the gap and breakout level remain defended.

Average timeframe: Around two weeks.
