

### MMG (1208 HK)

Last price: HK\$9.06

Support levels: HK\$8.24/HK\$7.73

Resistance levels: HK\$10.82/HK\$11.96

#### Technical View:

Price has staged a high-conviction continuation move, successfully penetrating its recent price high following a rebound off the gap support zone. The RSI is actively rising above its neutral 50-midline to confirm accelerating upward velocity. This implies a further upward price trajectory toward open-air target zones as long as the broken high and underlying gap support remain defended.

Average timeframe: Around two weeks.

### Zhaojin Mining Industry (1818 HK)

Last price: HK\$22.76

Support levels: HK\$20.42/HK\$19.62

Resistance levels: HK\$25.96/HK\$30.20

#### Technical View:

Price has demonstrated a robust structural follow-through, expanding higher after validating the resistance-turned-support zone as a new support floor. The RSI is actively rising above its neutral 50-midline. This signals further upward expansion toward higher overhead targets as long as this structural support shelf remains intact.

Average timeframe: Around two weeks.
