

Zijin Gold (2259 HK)

Last price: HK\$131.40

Support levels: HK\$118.20/HK\$112.90

Resistance levels: HK\$170.70/HK\$186.80

Technical View:

Price has delivered strong structural follow-through, expanding higher after resolving a flag continuation pattern to re-establish the prevailing markup phase. The RSI is holding firmly above its neutral 50-midline to confirm active buy-side displacement and robust trend velocity. This signals further upside trajectory towards the next overhead resistance zone as long as the breakout boundary of the flag remains defended on any minor dips.

Average timeframe: Around two weeks.

MTR (0066 HK)

Last price: HK\$32.34

Support levels: HK\$31.70/HK\$30.64

Resistance levels: HK\$34.34/HK\$36.64

Technical View:

Price has printed a hammer candlestick pattern directly upon retesting its resistance-turned-support zone, confirming an immediate rejection of lower prices and validating the new demand floor. The RSI is curling upward right at its neutral 50-midline to reflect a resurgence in buy-side displacement. This implies an upward price trajectory towards initial overhead target zones as long as this foundational support floor remains defended.

Average timeframe: Around two weeks.
