#### Cathay Pacific Airways (0293 HK)

Last price: HK\$13.93  
Support levels: HK\$13.15/HK\$12.59  
Resistance levels: HK\$14.51/HK\$14.65

Price was capped by its gap resistance zone, establishing the lower boundary of the price void as a fortified supply ceiling. The RSI continues to slope downward below its neutral 50-midline, accelerating trend velocity. As long as counter-trend rallies remain capped beneath this overhead gap resistance, we could expect a sustained downward trajectory toward lower support targets.

**Average timeframe: Around two weeks.**

#### Sino Land (0083 HK)

Last price: HK\$9.845  
Support levels: HK\$9.13/HK\$7.96  
Resistance levels: HK\$10.47/HK\$10.66

Price executed a decisive structural breakdown, penetrating a well-defined sideways consolidation zone that had constrained price discovery for nearly three months. The RSI has turned bearish and is accelerating down towards the oversold boundary. As long as counter-trend rallies remain capped beneath this newly converted consolidation support-turned-resistance zone, path-of-least-resistance dynamics favour a sustained downward impulse wave toward deeper support targets.

**Average timeframe: Around two weeks.**
