Hansoh Pharmaceutical Group (3692 HK)

Last price:	HK$34.12
Support levels:	HK$31.28/HK$30.50
Resistance levels:	HK$36.86/HK$39.32

The price successfully defended its previous support, absorbing downside pressure and establishing a higher low within the price structural hierarchy. Technical momentum strongly corroborates this structural defense: After consolidating around the 50 neutral baseline, the RSI has turned upward with positive velocity into bullish territory. As long as the price remains defended above this newly support, we see continued upward expansion toward overhead resistance.

Average timeframe: Around two weeks.

Zijin Gold International (2259 HK)

Last price:	HK$133.60
Support levels:	HK$114.10/HK$107.20
Resistance levels:	HK$165.00/HK$186.10

The price rebounded from its previous gap-support baseline, validated by a strong bullish daily rebound candle. The RSI has turned bullish after turning upward near the oversold threshold. As long as the price remains defended above the gap-support floor, we see continued upward expansion toward higher resistance targets.

Average timeframe: Around two weeks.
